## Profile

Passionate web designer with a strong foundation in psychology and a deep curiosity about human behavior. Currently pursuing a BS in Psychology at Virtual University of Pakistan (2024–2027), I create intuitive, user-centered digital experiences that feel natural and helpful. Skilled in building interactive websites, user-friendly tools, and thoughtful digital solutions using platforms like Wix and Weebly. I bring empathy, creativity, strong communication, and a collaborative mindset to every project – always putting the user first. Excited to turn ideas into meaningful online realities!.

## Interests

- Exploring how psychology shapes human behavior and emotions.
- Learning new design tricks and staying updated with web trends.
- Designing & experimenting with new website styles.

## Certificates

- Freelancing and Digital Marketing Course– Virtual University

## Languages

**English, Urdu, Pashto**
